The Pachamama Alliance

Notes to Financial Statements

For the year ended December 31, 2011

1. Organization and Summary of Significant Accounting Policies

Organization
The Pachamama Alliance (“Pachamama”) is a California nonprofit public benefit corporation that was organized in 1997 to preserve the Earth’s tropical rainforests by empowering the indigenous people who are its natural custodians and to contribute to the creation of a new global vision of equality and sustainability for all. The Internal Revenue Service and the California Franchise Tax Board have determined that Pachamama is exempt from federal and state income taxes under Internal Revenue Code Section 501(c)(3) and the California Revenue and Taxation Code Section 23701(d).

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Functional Allocation of Operating Expenses
The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among programs and supporting services benefited.

Cash
Cash consists of checking accounts with an original maturity of three months or less. Financial instruments that potentially subject Pachamama to concentrations of credit risk include cash and cash equivalents. Cash deposits are generally federally insured in limited amounts. Cash is stated at fair market value.

1. Organization and Summary of Significant Accounting Policies (continued)

Net Assets
Pachamama reports gifts of cash as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities and changes in net assets as net assets released from restrictions.

Pachamama reports using two classifications of net assets. A description of each classification of net assets is as follows:

- **Temporarily restricted** net assets carry restrictions that expire upon passage of a prescribed period or upon occurrence of a stated event as specified by the donor.

- **Unrestricted** net assets are composed of all resources not included in temporarily restricted net assets. All expenses are recorded as a reduction to unrestricted net assets.

Contributions
All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are designated for future periods or are restricted by the donor for specific purposes are reported as temporarily restricted net support that increase that net asset class. Unconditional promises to give, which do not state a due date, are presumed to be time-restricted by the donor until received and are reported as temporarily restricted net assets.

A donor restriction expires when a stipulated time restriction ends, when an unconditional promise with an implied time restriction is collected, or when a specific purpose restriction is accomplished. Upon expiration, temporarily restricted net assets are reclassified to unrestricted net assets and are reported in the statement of activities as net assets released from restrictions. Restricted contributions received in the same year in which the restrictions are met are reported as unrestricted contributions.

2. Fair Value Measurements

Pachamama’s financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on a hierarchy that gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). The levels of fair value hierarchy are as follow:

**Level 1** — Values are unadjusted quoted prices for identical assets in active markets accessible at the measurement date.

**Level 2** — Inputs include quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data from the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.

**Level 3** — Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect Pachamama’s best estimate of what hypothetical market participants would use to determine a transaction price for the asset at the reporting date.

Pachamama carries investments in marketable securities held at Charles Schwab with readily determinable fair market values and ranked as Level 1 assets. At December 31, 2011 investments consist of the following:

<table>
<thead>
<tr>
<th>Amount</th>
</tr>
</thead>
<tbody>
